# Courses taught at ETI (since 2024)

The teaching focus at the Creative Technologies Lab is centered on exploring the intersection of design, technology, and human interaction. Students engage in hands-on, project-based learning to develop innovative solutions that combine creative approaches with technical expertise. Emphasis is placed on the integration of emerging technologies to address real-world challenges while fostering critical thinking, collaboration, and interdisciplinary problem-solving. The lab encourages experimentation, prototyping, and iterative design processes to equip students with the skills needed to thrive in dynamic, technology-driven fields. The following list gives an overview about courses given by affiliated faculty and teaching staff.
