Leonie Winkelmann is a designer and research assistant at the Creative Technologies Research Lab at FH Münster. She specializes in system-driven AI design, focusing on creating solutions that enhance daily life. Her portfolio includes projects like "Leezenflow," a green-wave assistant for cyclists that indicates traffic light changes to promote smoother rides, and "Drink On," a device designed to encourage regular hydration through ambient lighting cues. Winkelmann's work emphasizes sustainable design and universal accessibility, aiming to make everyday tasks more intuitive and efficient.
